

University of Florida
Anita Zucker Center for Excellence in Early Childhood Studies
Embedded Instruction California Project
2022-2023 Scope of Work

The Anita Zucker Center for Excellence in Early Childhood Studies (AZCEECS) at the University of Florida will (a) provide ongoing implementation support and technical assistance to the DR Access Project focused on practice-based coaching, Embedded Instruction for Early Learning, and relevant universal and targeted teaching practices from the Pyramid Model; (b) work with the California Department of Education, Special Education Division (CDE-SED) and the DR Access Project to establish and implement ongoing quality assurance activities related to the above; and (c) collaborate with the CDE-SED and DR Access Project to transition internal evaluation activities associated with the Embedded Instruction for Early Learning California (EIEL-CA) project to the DR Access Project. These activities will be conducted from July 1, 2022 through June 30, 2023.

Major activities to be conducted during this contract year include: (1) Collaborative Planning Meetings with DR Access Project Staff and the CDE-SED to Support EIEL-CA Scale-Up and Sustainability; (2) Leadership and Programmatic Supports; (3) Seminars for DR Access and EIEL-CA Statewide Personnel; (4) Practice-Based Coaching (PBC) and EIEL-CA Professional Development and Ongoing Implementation Supports for Statewide Personnel; (5) Professional Development and Support for EIEL-CA Teachers; (6) Internal Evaluation and Reports; (7) Dissemination Activities.
