Research Rising!

The incredible success of the College of Education at the University of Florida is driven by our talented and dedicated faculty, whose groundbreaking research addresses critical educational and societal challenges. Through the Office of Educational Research's (OER) Research Rising! initiative, OER proudly supports faculty efforts, providing comprehensive support throughout the entire research process to elevate faculty achievement and advance the College's ranking within the University and beyond. This year, OER is excited to announce an expansion of its services to better serve faculty, fostering even greater innovation, collaboration, and impact. Together, we are reaching new heights, shaping the future of educational research, and fulfilling our shared commitment to excellence.

Associate Dean for Research and Faculty Development

Executive Summary

The Office of Educational Research (OER) completed its annual report outlining data on externally funded projects and grant activities in the College of Education (COE). Faculty productivity and efforts toward securing external funding remain high and have surpassed fiscal year (FY) 2023 in (a) dollar amount of currently funded awards and projects, (b) funding per faculty member across all groupings of faculty, (c) research expenditures, (d) dollar amount and number of collaborative proposals, (e) dollar amount and number of collaborative newly funded awards, and (g) dollar amount of collaborative currently funded awards.

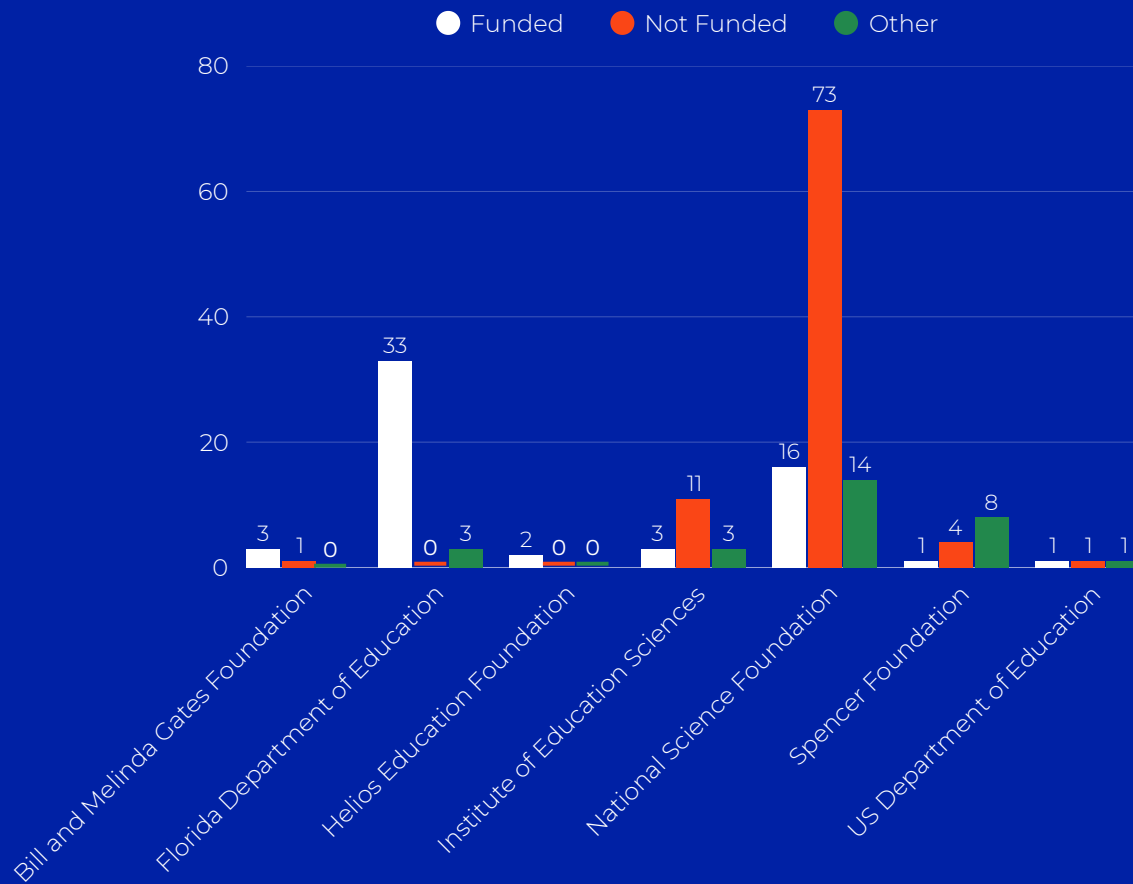

COE faculty consistently submit competitive proposals, as demonstrated by funding rates of 39.2% receiving immediate funding and 24.4% requiring additional deliberation before receiving funding. COE faculty members in all schools and centers submitted 248 proposals, requesting \$267.2 million in external funding, and received funding for 69 new awards, contributing to over \$34.6 million in newly funded awards. Of the total dollar amount of newly funded awards, notably 52.4% were funded as subcontracts and 17.6% were funded by federal organizations. COE schools and centers have 200 currently funded awards and projects, equaling \$628.6 million, with 45% funded as subcontracts and 21.5% funded by federal organizations.

Research funding per faculty member (tenure and non-tenure track, excluding P.K. Yonge faculty) amounted to \$5.1 million and 47.6% of faculty in this grouping submitted at least one proposal. Additionally, research expenditures totaled \$79.3 million college-wide, a 43% increase from Fiscal Year 2023.

**Note:* All graphical and numerical representations of data for schools and units include data from faculty members who are dual affiliated with centers as applicable. Charts do not include units that had 0% in a category for Fiscal Year 2024.

Definition of Terms

Fiscal Year 2024: July 1, 2023 - June 30, 2024

Award: A submission that was newly funded during the report's fiscal year and was completed through the OER and the Division of Sponsored Programs (DSP).

Centers, Institutes, and Affiliates: Any entity funded by a contract or grant that generates indirect costs (IDC) for college and university use or any entity that titles itself a "center" regardless of IDC-generating status. This designation also includes COE-affiliated entities with case-based approval.

Collaboration: Any contract or grant proposed or submitted in conjunction with a faculty member who is affiliated with a University of Florida (UF) division outside of the COE or a university/college outside UF. The faculty member with an affiliation outside of the COE must be listed as either the PI or Co-PI to be considered a collaboration.

Dual Affiliation: Any faculty member who receives funding (through salary or a contract/grant) from both a school/unit in the COE and a COE-designated center, institute, or affiliate (see above for an explanation of schools/units and centers/institutes/affiliates). Affiliations are listed in the narrative list at the end of the report.

Faculty Member: A tenure or non-tenure track individual eligible to submit a proposal for external funding. See DSP guidelines at <https://research.ufl.edu/dsp/proposals/eligibility-to-submit-a-proposal-for-external-funding.html>

Faculty Participation: An eligible individual who submitted a proposal for external funding. Eligible individuals include faculty members with the title of professor, associate professor, assistant professor, clinical associate professor, clinical assistant professor, senior lecturer, lecturer, scholar, associate scholar, assistant scholar, and instructor at PKY. Non-faculty individuals with case-based approval are also included.

Flow-Through Funding: Funds issued by a federal agency to a state agency or institution that are then transferred to other state agencies, units of local government, or other eligible groups per the award eligibility terms. The state agency or institution is referred to as the “prime recipient” of the flow-through funds. The secondary recipients are referred to as “subrecipients.” The prime recipient issues the subawards/subcontracts as dictated by the prime award terms and authorizing legislation (excerpted from grants.gov).

Notice of Award: An award that has been secured with DSP’s acceptance as the Authorized University Official. The NOA process authorizes the opening of a project in UF’s financial system. The NOA is distributed to the PI, College/Department, and Contracts and Grants Accounting who finalize the contract set-up in UF’s financial system.

Project: A submission that was funded prior to the report’s fiscal year; was completed through the OER and the DSP; and is still funded in the current fiscal year either through the original contract, grant, or a no-cost extension. Some School Service Center contracts that support research are included with case-based approval. This category excludes external funding secured through selected other sources (e.g., state appropriations).

Schools/Units: Schools and units include groups of academic departments within the COE (i.e., SHDOSE, SSESPECS, STL, P.K. Yonge Developmental Research School) and departmental units that stand alone (i.e., Dean’s Area). This designation also applies to contracts or grants from faculty members with dual affiliations in a school/unit and a center.

Submission: A contract or grant proposal that was submitted to the OER and subsequently routed to the DSP. This excludes external funding secured through selected other sources (e.g., state appropriations).
