

Overview

PK Yonge Career and Technical Education Services' plan for the 2025-2026 biennial Comprehensive Local Needs Assessment (CLNA). Leveraging an established partnership with Alachua County Schools, the agency will expand its advisory boards to include new stakeholders—teachers, administrators, post-secondary faculty, workforce and business organizations, parents, students, special-needs coordinators, and out-of-school-youth services. Input will be gathered through surveys, focus groups, advisory meetings, and community forums.
