

# << **EME3319: DESIGNING AND DEVELOPING EDUCATIONAL MULTIMEDIA** >>

## EDUCATIONAL TECHNOLOGY SPECIALIZATION

Preparing for a career in instructional design and e-learning.

## DESCRIPTION

An introduction to design and development of eye-catching educational multimedia.

Through highly interactive and hands-on course activities, you will master the application of principles, methods and tools for the design and development of vibrant multimedia products. Blend your creativity with image editing, audio production, animation, video-storytelling, screen-casting and other collaborative media formats.

## MASTER MULTIMEDIA DESIGN AND DEVELOPMENT

- >> Apply design principles
- >> Create interactive cloud presentations
- >> Develop animations
- >> Record videos and screencasts

## PREQUISITES

- >> **EME2040:** Introduction to Educational Technology
- >> **EME3813:** Technology-Enhanced Learning Environment
