

Annual Report: Long Range Planning Committee  
April 2007

The Long Range Planning Committee had its first meeting on December 13, 2007. Membership of this committee included: Bernie Oliver, David Therriault, Harry Daniels, David Honeyman, James McClesky, Jeri Benson and Nancy Dana (Chair). This was an organizational meeting to select a chair, discuss the work of the committee, and plan meeting dates for the remainder of the semester.

The committee met three times during the Spring semester (January 10, 2007; February 14, 2007 and March 8, 2007). Our agendas for each meeting focused on updating and completing the deans' surveys, as well as creating a survey on faculty governance. The committee submitted completed evaluations for Catherine Emihovich, Paul Sindelar, and Theresa Vernetson to Buffy Bondy, FPC Chair, to send out to faculty in the college for completion. In addition, a draft survey on Faculty Governance was submitted to FPC. FPC utilized the survey developed to generate dialogue about faculty governance, and subsequently sent out its own faculty governance survey. Summaries of each meeting of the Long Range Planning Committee are available from Nancy Dana.
