

Support of Algebra Nation South Carolina 2018-19

The University of Florida (UFL) will assist Study Edge in the implementation of Algebra Nation in South Carolina through the following services:

- UFL will assist with revising content, producing videos, practice problems, etc., aligned with South Carolina mathematics standards.
- UFL will host professional development sessions for South Carolina teachers.
- UFL will regularly update key educational, political, and community stakeholders with progress and key metrics on usage and achievement.
- UFL will attend and present Algebra Nation at various conferences and events.
- UFL will develop relationships with industries, organizations, and other leaders to promote Algebra Nation and STEM education in South Carolina.
- UFL will participate in ensuring program standards are maintained.
