

## **District Instructional Leadership and Faculty Development Grant**

The goal of the project is to strengthen administrative as well as teacher leader support and coaching for the development and testing of a standards-based grading system (SBG), personalized competency-based education (CBE), and multi-tier system of supports (MTSS) with Universal Design for Learning (UDL)-informed core curriculum through adapted use of Canvas to improve achievement for every student, particularly for underperforming, economically disadvantaged students and students with disabilities K-12.
