

Anita Zucker Center for Excellence in Early Childhood Studies
University of Florida
Screening-Early Intervention Workgroup and Tracking System

The purpose of this project is to work with the Contractor Anita Zucker Center for Excellence in Early Childhood Studies at the University of Florida to complete the following:

- Convening and facilitating the creation of a workgroup of experts in developmental screening and services for children with disabilities and professionals representing programs/services throughout the state to create a more streamlined, coordinated, and responsive system for families to access services that meet their children's unique learning needs.

- Exploring promising models for tracking early intervention services of individual children, designed to provide continuity in service delivery, improve outcomes and accountability, and promote ease of service navigation for families and service providers.
