

## **ACES-2: Development and Validation of the Revised Academic Competence Evaluation Scales**

### Statement of Work

Dr. Anthony will be involved in every aspect of this project. The proposed project entails the revision and renorming of a commonly used rating scale, the Academic Competence Evaluation Scales. For this project, activities may include such activities as extensively reviewing the literature, developing new items, researching psychometric techniques to be used, designing validity studies, analyzing results, writing the technical manual, writing journal articles, and presenting results at national conferences.
