

Instructional Continuity Plans

P.K. Yonge Developmental Research School will develop and submit an Instructional Continuity Plan (ICP) in a format described by the Florida Department of Education (FLDOE) using the ICP portal with input of stakeholders. Professional development for all teaching faculty to be provided by Ms. Christy Gabbard, Director of Program Development, will be the main area of focus to support implementation of P.K. Yonge's Instructional Continuity Plan. All school leaders and teachers will receive professional development in the areas prescribed by FLDOE.

P.K. Yonge is committed to ensuring that all students continue to receive rigorous instruction whether in person or via Virtually PKY in the event of quarantines or school closure. As a special school district, P.K. Yonge is not responsible for any private or charter schools.
