

# INNOVATION IN DISTANCE SUPERVISION: USING IOS DEVICES TO LIVE STREAM OBSERVATIONS

Monday, November 10  
11:00 a.m. to 1:00 p.m.  
Norman 158

Join us for a conversation with Matthew Schmidt, faculty member at the University of Hawaii. Dr. Schmidt will discuss the innovative distance supervision system developed in conjunction with SESPECS faculty for Project RITE. This novel system utilizes iPad minis, detachable lenses, lapel microphones, and live streaming!
