Cognitive Psychology Applied to Education

**EDP 6052, Section 24BA**  
**Meets Wednesdays 4:05pm-7:05pm,**  
**Norman Hall: Room 270**  
**3 Credit Hours**

Instructor: Dr. David Therriault, Associate Professor	
School of Human Development and Organizational Studies in Education (SHDOSE)	Email: <a href="mailto:therriault@coe.ufl.edu">therriault@coe.ufl.edu</a>

This course is designed for Graduate students interested in a cognitive science approach to modern educational issues. Cognitive Psychology is highly interdisciplinary field drawing from linguistics, artificial intelligence, philosophy, biology, computer science and neuroscience. Consequently, students from varied disciplines (both inside and outside of education) are encouraged to enroll.

Specifically, the course explores mental processes and constructs (e.g., attention, memory, language, reading, & complex problem solving) as they related to educational practices (e.g., instructional techniques and learning). We will examine readings primarily from a psychological point of view that makes use of experimental methodologies. The course follows a seminar format.

Please feel free to contact Dr. David Therriault with any questions at (352-273-4345) or for a copy of the syllabus, email: ([therriault@coe.ufl.edu](mailto:therriault@coe.ufl.edu)).
