

## RESEARCH OPPORTUNITY

Gabrielle Darville, a UF doctoral candidate in the Department of Health Education & Behavior is looking for 60 – 70 men at UF to pilot test a NEW digital game to be used in her dissertation research study on sexual health. If you are interested in serving as a research participant or have specific questions pertaining to this opportunity not outlined in the details below, please send an email to Gabrielle Darville at [gdarville@ufl.edu](mailto:gdarville@ufl.edu) today!

### RESEARCH OPPORTUNITY DETAILS

**WHO:** All males between 18 – 26 years old who are currently enrolled at the University of Florida and non-recipients of the HPV vaccine.

**WHAT:** Participate in a pilot test of a NEW digital game. You will be asked to fill out a pre-assessment survey, come into the lab to create an avatar character, play the game as that character and then fill out a post assessment survey. Only one student will be able to play the game per time block.

**WHEN:** Pilot testing of the new game will start, Monday, February 15th, 2016 and continue until Friday, February 26th, 2016. Pilot testing will be conducted between the hours of 9:00 a.m. and 5:00 p.m. and will last approximately 30 – 45 minutes. You will be informed of the testing location once you have completed enrollment and scheduled your time slot. Refreshments will be provided for all participants and you will be compensated with a \$10 UF Visa Debit Card for your time.

**WHY:** Participating males will provide feedback about the game stimulus in order to determine if revisions are necessary prior to data collection.

**HOW:** Sign-up TODAY by filling out the link: [http://www.supersaas.com/schedule/HPV\\_Digital\\_Gaming\\_Study/Pilot\\_Test](http://www.supersaas.com/schedule/HPV_Digital_Gaming_Study/Pilot_Test) to schedule your time. Remember please sign up for one 60 minute time block on the dates indicated above.
