

The One Room School House Project is Gainesville's first public charter school, established in 1997. ORSH offers an academic schedule for grades VPK-8th in a small school environment. One Room is celebrating 20 years this year and is celebrating the middle school receiving an A rating and the elementary school receiving a B rating. One Room is a Title 1 school located on the east side of Gainesville and serves students of low income. At One Room teachers are encouraged to teach at a pace that is beneficial to their students and provide closer and more personal attention to their students. Since One Room is Title 1 and our class sizes are small, we are able to provide many academic tutoring opportunities for our students, both during and after school.

This year ORSH received a letter from Gov. Scott recognizing our accomplishment's for our schools improvement in passing FSA scores. Number 17 out 3196 schools in the state of Florida. We did this by not teaching to the test. We look at the full learning process and involve the teachers in setting our goals and policies.

If you would be interested in making a difference in East Gainesville. Working in an environment with a proven track record. Having the opportunity to teach with a style that works best for you, and your students. Being not only asked what could be done better, but given an opportunity to implement great ideas. Please contact me for more information.
